

The diagram shows an equation. On the left, a red triangle pointing right contains the symbol σ . A horizontal line connects this triangle to the symbol μ_0 . This is followed by an equals sign. To the right of the equals sign is a large expression enclosed in large parentheses. Inside the parentheses, there is a red rounded rectangle containing the symbol σ_E . Two horizontal lines enter the rectangle from the left: the top line is labeled e'_0 and the bottom line is labeled e_0 . A curved line connects the right side of the rectangle back to the top line, forming a loop.
